

Fraudsters vs. You: Even the Playing Field

Comprehensive Identity Protection & Restoration service

Our movements and transactions are all recorded and tracked in the digital age. And between ourselves, our partners, kids, and parents, there are too many ways to steal our financial, medical, and personal information. Strong identity theft management requires vigilance, time, and resources which most of us don't have. That's where comprehensive identity theft protection with LifeStages Premium comes in handy.

The cost of having your identity stolen:

- Stolen money or assets
- Having debts accrued in your name
- Compromised personal identifiers such as your social security number and date of birth
- Tarnished credit history
- Stolen medical benefits
- Complications with the law (should the criminal do something illegal with your identity)

With LifeStages Premium, you receive 360 degree monitoring of your personal and financial accounts. Protection includes traditional information such as your banking and social security data and investment activity, social media, medical insurance information, e-mail accounts, and other personal identifiers. Additionally, LifeStages Premium extends identity theft protection to your partner and children. Couple all this with legal identity protection from MetLife Legal Plans, and you're your own Fort Knox.

Consider this scenario¹

Ada has multiple streams of income: from her full-time job and as a social media influencer. Her investment strategy includes traditional markets, cryptocurrency, and leveraging different investment apps. It's difficult to keep track of passwords and security information across all her business and social accounts.

While these platforms promise to take security seriously, Ada knows that cyber hackers are sophisticated and worries she will be targeted the more successful her influencer business becomes. So, she chooses to take advantage of LifeStages Premium through MetLife Legal Plans. Having an identity theft protection plan across dozens of accounts makes it easy to manage her profiles. Plus, their recovery features, which include up to \$2 million in identity theft insurance, gives her the confidence to focus on building her empire.
